## Death of Dr. H. L. Cartwright.

The intelligence of the death of Dr. Henderson L. Cartwright, brother of Dr. W. F. Cartwright, this place, reached Columbia last Friday afternoon at 2 o'clock. The end came at his late home, in Burkesville, and he was sick but a few days.

The deceased was born and reared near Glenville, in Adair county. He was a man of strong intellect, and a very eminent physician. He was a man who sought knowledge, and only a few years ago he took a post graduate course in New York City. He was a great reader, firm in his convictions and had no hesitancy in expressing his opinion upon National and State questions. He stood for everything designed to better the condition of the community in which he lived, and was a foe to lawlessness of every character.

The deceased leaves one child, a married daughter, who resides in one of the Southern States, and two brothers to the writer's knowledge. One brother lives in the South, the other one, as above stated, here.

The remains were removed from Burkesville to Breeding, this county, where after religious exercises, Saturday forenoon, were interred by the side of his companion, who died many years ago.

The deceased was about sixty-one years old, and had been serving man from youth to the day of his demise.

Dr. W. F. Cartwright reached his brother's bedside a few hours before the final dissolution.

Peace to his memory; heartfelt sympathy to the only child, a daughter, the surviving brothers and other relatives.

## Card of Thanks.

We are made to realize more forcibly than ever that language is a means of concealing rather than revealing our thoughts, consequently our gratitude to the people of Russell Springs are inexpressible. When our dear baby Dowell, was in the balance between Time and Eternity, our many friends were ever present to render all assistance in human power. Then when Dowell's young spirit was finally summoned to the great beyond, these noble hearted people just overwhelmed us with kindness and sympathy, and made us feel we were undoubtedly living among the best people on earth. Now through the columns of the News, let us tender our most sincere thanks and gratitude for their many deeds of kindness.

Dr. and Mrs. Jno. D. Combest.

## The Enumerators.

There were thirty-two applicants for enumerators examined by J. N. Coffey in this county. The papers were sent to Mr. H. C. Kennedy, the Supervisor for the Eleventh Congressional district, who graded them and made returns as follows, Adair being entitled to fifteen enumerators, out of the thirty-two who were examined, ten passed, five names being in doubt. The Supervisor returned the following names:

John O. White, Chas. G. Jeffries, Samuel Ray Conover, Wm. H. Kemp, Robert O. Dillingham, Walter S. Sinclair, Jo O. Miller, Robt. B. White, Wm. J. Biggs, Ed Butler, Buford B. Montgomery, Luther Brockman, Herschel T. Baker, Chas. S. Moore, Edwin G. Hulse.

Ten of this number passed and the Supervisor selected five of the best failures and sent the fifteen names above given to Washington, and asked that they be appointed. It is not known what will be the result of the five who were not passed by the Supervisor. It may be that their papers will go through at Washington and it may be that another county examination will be ordered. Ten of the fifteen names mentioned will go through.

## Clean Your Premises.

To the people of Adair County:

The time has come now, when we ought to look after the conditions of our premises, and see that everything is in good sanitary condition. Look into the condition of the cellars, the privies and everything that is in an unclean condition. It is a great deal easier to prevent disease, than it is to cure it when it comes. I want especially the doctors to notify me of any contagious or epidemic disease that they may find in the bounds of their practice. While I am at all times ready to obey any calls that I may receive from the doctor, I cannot know, unless I am notified, I am not a mind reader, and never have professed to be. And it is the duty of not only the doctors, but the duty of the head of families to give me information along these lines. I have been trying to fumigate every house where a consumptive has died, but frequently a notice in the County paper is the first intimation that I have of the death of a consumptive. The physicians ought to be more particular about these important things. I want information about all these diseases, whether the cases have died or recovered.

Consumption, typhoid fever, diphtheria, scarlet fever, whooping cough, measles, and cholera infantum. I did a great deal of work along these lines last year, but I want to do more this year, if the epidemics require it. Let every body be ready to fight the pestiferous fly when it makes its appearance. All the houses ought to be screened, and especially where any body is sick. A hint to the wise ought to be sufficient.

U. L. Taylor, Health Officer, Adair County.

A. C. Hughes, near by Jacksonville, Ill., formerly of Russell county Ky., has been very busily engaged in buying and selling stock. He sold one span of mules for \$400. He also bought 21 head of cattle from G. W. Wright that cost him \$4.40 per hundred. So if there is any of the boys that wants to trade call and see him.

## SAM C. LAWRENCE

### Who Conducted a Blind Tiger at Sand Lick, Shot and killed.

THE MAN WHO DID THE KILLING UNKNOWN.

The dead body of Sam C. Lawrence, who run a blind tiger at Sand Lick, the location being where Adair, Cumberland and Russell counties corner, was found dead, near his shack, shot through the body, last Thursday morning. He had been a disturbing element for several years. Not a word as to who did the killing has come to light.

LATER:—Parties who saw the body of Lawrence state that he was not shot, but had been struck on the head. It is also reported that when he left his home he had considerable money on his person, but when found he had no money.

I will on Monday March 7, 1910, at the court-house door in Columbia Ky., sell at Public auction to the highest bidder, about 189 acres of land lying on the waters of Green river, near Ella, post-office, which is known as the Sarah Gadberry land, and belonged to J. S. Stapp, at the time of his death. Terms of sale will be made known on day of sale. Jas. Garnett, Executor, 16-2 of J. S. Stapp.

The public roads are in a fearful condition but no worse than usual at this season of the year. There is not a road over which any team can pull more than a half load and but few that will permit that much. The Fiscal court ought to formulate some plan that would aid in making better roads, and by so doing, in four years, would convince the people that it should be kept up. The little efforts heretofore have not amounted to much and instead of getting better roads have really caused indifference. Establish or adopt a system that will build a few miles each year and keep it up for four years and sentiment will change and conditions also.

We will on March 1st, 1910, move our livery outfit to the barn now occupied by Stapp Bros., and ask our friends and patrons to call on us at this stand. When in need of livery call 99. Goff Bros.

Instead of selling hogs our farmers ought to keep every one they have. While it does not require more than a year to produce a good porker yet this section is short on hogs and much bacon will be shipped in to meet the demands. Every farmer ought to have some young swine and give them all they can eat. To clean the farm of hogs simply because of the unprecedented high price, is a mistake and every one who does it will later see the folly. Brood hogs ought to be in great demand throughout the country and none of them should be put on the butcher's market.

All parties holding accounts against Aaron Richards, deceased, are requested to present same to me, on or before the first day of April, 1910. Tom Powell, adm.

Do not make any other engagement for next Friday. Remember you are due to attend the Stapp livery sale.

Joe E. Johnston began receiving pooled tobacco yesterday at Allen Walker's barn on Greensburg street. Elroy poolers are requested to deliver their tobacco first. 16-2t
